Dan.....

Thanks so much for suggesting that I attend the class on Saturday. It was fantastic!! The instructor, Mr. Fullerton, and all of his instructors helping were so professional and helpful. I learned so much that day. I couldn't believe what a prime target I was prior to the class. I am going to be sure I practice and don't forget the procedures that they taught us. Next year if we have the class again, I am going to encourage a lot more employees to attend. They are truly missing out on a great experience.

Thanks again, Dan. I really appreciate it. "Even though I can hardly walk today!!" Ha!
